## SUMMARY

I have 2.8 years of professional experience in the UX/UI field in the Health IT industry. I am looking for full-time or contract positions. For contract, I need at least 6 months of work. I can work remotely.

## EXPERIENCE

### **Self-Employed, Boyds, MD USA**

#### **Indie Creator**

June 2018 - Current

- Learned HTML/CSS/JS and a little bit of C# in Unity
- Created an online shop on Etsy, Instagram, Facebook, and my own website to sell my products
- Published several chapters for my series on WEBTOON called "Butterfly Kisses"
- Drew over 400 illustrations and dozens of thumbnails/sketches/storyboards

### **DrFirst, Rockville, MD USA**

#### **UX/UI Designer**

Sept 2016 - June 2018

- At a company new to UX, I had to evangelize its benefits to Product Managers, Business Technical Analysts, Developers, Clinical Workers, and C-Suite Executives
- Sketched out wireframes, created personas, presented mockups, conducted user research, built prototypes
- Designed for desktop web, mobile web, iOS, and Android
- Created high-fidelity mockups of feasible proposals for the web portal including data visualizations (graphs, maps, tables, etc.)
- Lead UX Designer for Akario Backline and iRegister (internal admin portal)

### **Epic, Madison, WI USA**

#### **UX Designer**

July 2015 - May 2016

- Iterated on wireframes, paper prototypes, low- and high-fidelity mockups for proposed interfaces
- Presented to stakeholders early and gained user feedback (I told the story and everything)
- Using HTML/CSS/JavaScript, I proposed feasible, intuitive mockups to my teammates
- Played a critical part in creating the company's 2015 Style Guide
- Introduced Lean Design Process to teams that traditionally followed a waterfall, or no design, process
